

Free overview of award winning FileMaker Software (worth \$300)
It will provide a very comprehensive, hands on introduction to FileMaker Pro

The **FileMaker Platform** is a line of products (FileMaker Pro, FileMaker Go, FileMaker Server, etc.) that work together to meet the specific needs of your business. You can easily create apps (custom business solutions) to manage and share information with your team and customers on Mac, Windows, mobile devices (iPad, iPhone), and the web.

Instead of relying on **spreadsheets, paper forms, or multiple applications** to get your work done, connect your team together with interactive screens, reports, and dashboards that deliver all the information they need in one place. The FileMaker Platform puts you in **control**, providing an **easy way** to create apps that meet the specific needs of your business.

People and organizations all over the world rely on the award-winning FileMaker Platform to manage, analyze, and share important information. The software is available in over 60 countries in 17 languages and is used by all types of organizations, including government, education, healthcare, retail, manufacturing, real estate, legal, and more, to streamline a wide range of functions like project management, asset management, invoicing and billing, and customer relationship management (CRM).
